SUPPORT US

www.rasasc.org

We have been caring for survivors of rape and sexual abuse since 1992. We believe that survivors should have access to free, empathetic and professional help.

We are the only specialist rape and sexual abuse support service in Surrey working with women, men and young people from age 13. With your help, we can make sure that all survivors in the Surrey area receive the specialist support they need.

How we help

We put survivors at the heart of all we do. Our charity is dedicated to helping survivors to improve their mental wellbeing and to develop coping strategies, so they can face their future with resilience and confidence.

We know that our work is having an impact. In 2018, over 95% of our clients said our work helped to improve their mental wellbeing. We also received the Queen's Award for our work, which is the equivalent of the MBE for the voluntary sector.
